Deafness Cannot be Cured. By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by the constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

Disease is an effect, not a cause. Its origin is within; its manifestations without. Hence, to cure the disease the cause must be removed, and in no other way can a cure ever be effected. Warner's SAFE Cure is established on just this principle. It realizes that

of all diseases arise from deranged Kidneys and Liver, and it strikes at once at the root of the difficulty. The elements of which it is composed act directly upon these great organs, both as a food and restorer, and, by placing them in a healthy condition, drives disease and pain from the system.

For the innumerable troubles caused by unhealthy Kidneys, Liver and Urinary Organs; for the distressing Disorders of Women; for all Nervous Affections, and physical derangements generally, this great remedy has no equal. Its past record is a guarantee for the future.

SHILOH AND VICKSBURG PARKS. The High Price a Serious Drawback to the Projects.

MONTICELLO, Ill., Dec. 14.—The committee appointed by the Vicksburg National Park Association to ascertain the price of the land desired for the park has made its report, and is much discouraged with the outlook. The parties owning the land ask the committee as high as \$175 an acre. The committee only wanted to pay \$50 an acre for 400 acres. The sub-committee reports that the cost will exceed \$200,000. There will be another meeting held December 17 to see if there cannot be some compromise on the price asked by the land owners.

At Shiloh there was one tract of land owned by W. C. Meeks. He wanted \$10,000 for 175 acres. His demand was refused, as other lands had been secured at an average of \$12 per acre. Meeks now asks the commissioners \$35,000 for the land. Condemnation proceedings have been instituted and the case will be tried in United States courts at Pittsburgh, Landing next Tuesday. The result will establish the price of the lands on that battlefield.
